**Michael Tenters**  
Director of Curriculum & Instruction

**Robert Marquis**  
Superintendent of Schools

**Jennifer Burk**  
Business Administrator

---

## VOLUNTEER SAFETY

All staff, students, volunteers, and visitors will comply with the established rules and regulations for health, wellness, and safety within the school environment. Every school community member has the responsibility to report unsafe conditions or accidents promptly to school administration.

The Milford School District has developed a Safety Program which outlines the District's commitment to providing an environment that is safe from occupational and health hazards and the steps for reporting any unsafe conditions or accidents to administration.

An electronic version of the program is available on the District's website (go to [milfordk12.org](http://milfordk12.org), under Documents), and a hard copy is available in the main office at each school building, in District nurses' offices, and in the library at each school. If you would like a hard copy of your own, please contact Jill Larro in the SAU office by phone at 673-2202 ext. 3400 or via email [jlarro@milfordk12.org](mailto:jlarro@milfordk12.org).

I, \_\_\_\_\_ (PRINT NAME), understand that the Milford School District Safety Program is available for review on the website or in any main office in the District as outlined above.
